Utilizzo dell'intelligenza artificiale

Utilizziamo l'intelligenza artificiale (IA) come supporto nella creazione e nell'elaborazione di determinati contenuti. Ciò riguarda in particolare gli sfondi delle immagini, nonché la creazione e l'ottimizzazione linguistica dei testi. Altri contenuti vengono creati interamente senza l'utilizzo dell'IA.

Le nostre immagini dei prodotti si basano generalmente su fotografie originali dei prodotti effettivamente offerti in vendita. In alcune immagini, il prodotto originale viene collocato su uno sfondo creato digitalmente o mediante IA oppure inserito in una scena creata digitalmente o mediante IA. Gli sfondi e le scene raffigurati servono esclusivamente alla presentazione visiva del prodotto e non fanno parte del prodotto offerto in vendita.

Qualora singoli contenuti visivi siano stati inoltre generati artificialmente o modificati in modo sostanziale mediante IA, vengono contrassegnati conformemente ai requisiti di legge applicabili.
